- 5. The Communist educational center in Berlin would be inspired by KUTV (Komunistk). Universitet Trujasci Vostoka, or Communist (abor University of the East), which was originally founded by Stalin. The purpose of KUTV was to prepare Communist activists for all the countries of the East.
- 6. The Milovan Gilas affair is one of the episodes in a surreptitious struggle that has been going on between those Yugoslav Communists who are secretly homesick for the Cominform, on the one hand, and moderate Titolsts who favor democratication of the Yugoslav regime, on the other. Gilas was one of the men who managed the break with Moscow, a fact that must never be forgotten. He has been accused of firting with Beven. His renunciation of Leninist-Ttalinist theories was flagrant. The "hard" Communists of Yugoslavia were looking for a chance to smash Gilas, anyhow, because of his deviationism. The rest of the motives underlying the Gilasffair are merely due to a desire to get rid of an opponent. This is, today, an accomplished fact.
